MOEBE

MOEBE creates simple and functional furniture, lighting, and home accessories.

In a world that always demands more, MOEBE designs for less—less noise, less clutter, less waste. Each design is stripped to its essentials, making every detail matter. Our designs are modular, adaptable, durable, and repairable.

To help us do this, we have developed a simple set of rules that shape our designs.

The Philosophy of Less

Design to do more.

If we want people to use less, own less, and buy less, then what we design has to do more, - and do it for longer. That means creating modular, adaptable pieces that evolve with changing needs and spaces.

Build it smart.

Adaptable designs are great, but how we build them matters just as much. It comes down to the details: how materials meet, and how elements connect. Our designs should be beautiful, useful, and inspirational, but they should also arrive flat-packed, fit through your front door, and be easy to repair.

Produce with the best.

Good design is well made. We choose our partners carefully, making sure every step of the production process reflects our intent. Over 95% of our production takes place in Europe, supporting our commitment to responsible and sustainable sourcing.

Make it last a lifetime.

We create timeless designs by steering clear of trends and focusing on simplicity and function. Modular shelving, expandable beds, and adaptable pieces grow with life's changing needs. Affordable spare parts and recyclable materials help extend product life and reduce waste.

The end is the beginning.

Modern design faces big challenges, and we're proud to be part of the conversation about how to do better. Our Philosophy of Less gives us a clear set of principles to build on - and we're only just getting started.

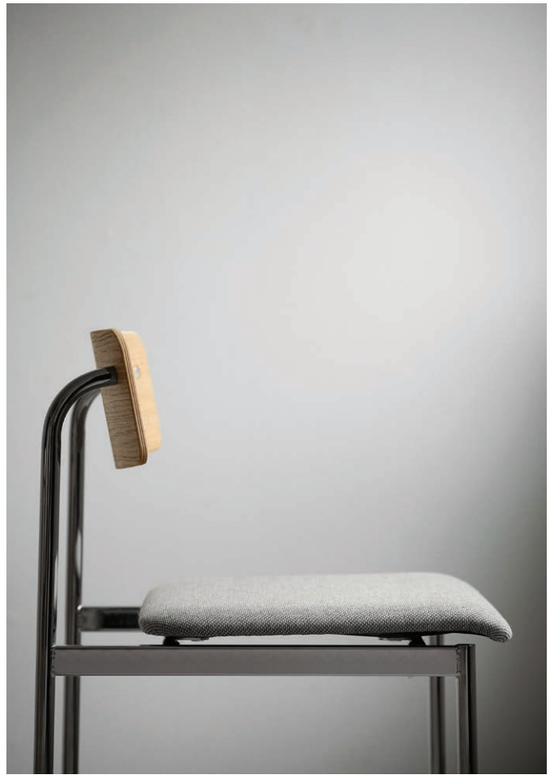
Offset Chair NEW

オフセットチェア
¥80,000〜
オフセットチェア（座面あり）
¥110,000〜

Offset Chair is a dining chair shaped for comfort and defined by a strong visual presence. Two continuous steel lines in chrome or black outline the chair, with the back legs sweeping forward to meet the backrest, creating its distinctive offset profile. The result is a light, open expression that fits naturally into dining rooms, workspaces, cafés and shared settings.



Fold-out Desk NEW

フォールドアウトデスク
￥100,000

A desk that appears when you need focus, and disappears when you need space. It features just three components: two slim metal brackets, a table plate that clicks into place, and a stainless steel wire for support. When open, it creates a stable workspace supported by a single stainless steel wire. When not in use, it folds away in a clean vertical line, leaving nothing but the slim mounting brackets and the barest hint of its presence.

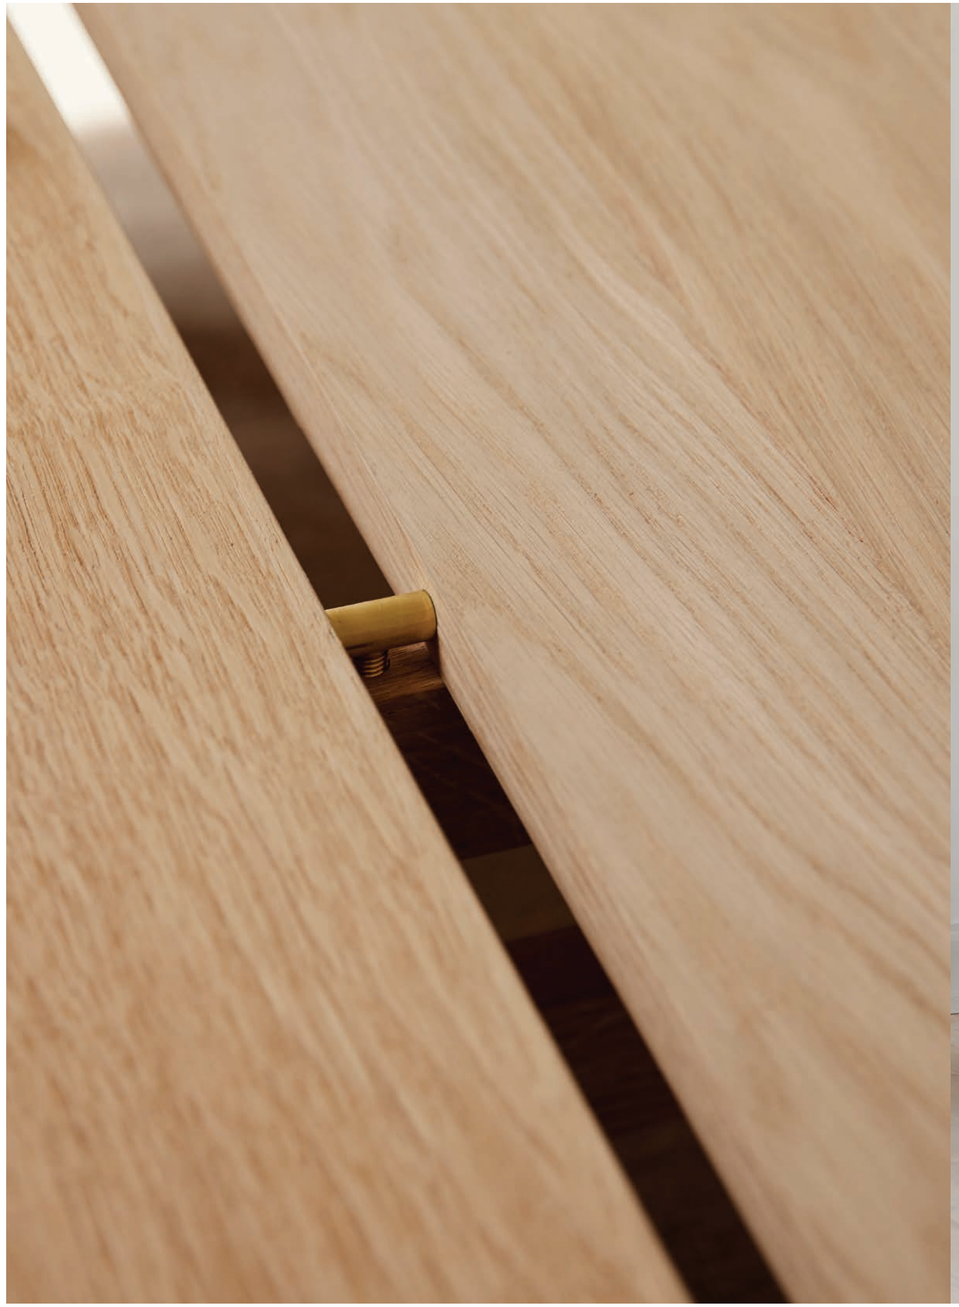
Rectangular Coffee Table

レクタングラーコーヒーテーブル
W115cm ￥145,000
レクタングラーコーヒーテーブル
W60cm ￥100,000

The MOEBE Rectangular Coffee Table is low in profile, standing just 30cm from the floor. The cross-shaped leg frame gives a feeling of space by suspending the tabletop along the middle and keeping the corners free. Each table arrives flat packed and is threaded together piece by piece via a brass screwing mechanism at its centre. Available in two lengths, made in Europe and FSC®-certified.

Rectangular Coffee Table
115 cm



Rectangular Coffee Table
60 cm

Round Coffee Table

ラウンドコーヒーテーブル
¥180,000

The MOEBE Round Coffee Table is low in profile, standing just 30cm from the floor. The cross-shaped leg frame is threaded together piece by piece with a brass screwing mechanism at it’s centre, proudly displaying the construction for all to see. And what better way to finish it off than with a glass table top? Oh, and the wood is FSC®-certified, naturally.

Peg Collection

ペグベンチ
¥80,000
ペグスツール
¥50,000
ペグステップスツール
¥40,000

The MOEBE Peg Collection was developed to play with the idea of connection; bringing separate pieces together to create form and function without overcomplicating things. Peg Step Stool, Peg Stool, and Peg Bench are made in Europe from FSC®-certified oak, and arrive conveniently flat-packed.

Each piece is formed from two halves, joined together by wooden pegs. As well as holding the bench and stools together, this creates a handy slot along the centre that makes it easy to move around with a single hand.

Peg Bench works well in most settings, but its narrow width makes it a perfect fit for narrow hallways and tight entrances.

Peg Stool works as a small table, a display stand, or just as somewhere to sit. Stack up to three stools together to keep things neat and tidy.

Peg Step Stool is a perfect child's seat, but it also comes in handy for adults who need an extra bit of help reaching the top shelf in the kitchen.

Sinuate Pendant NEW

シニュエートペンダント L
¥150,000
シニュエートペンダント M
¥135,000

Sinuate Pendant is a layered paper light that takes shape through tension alone - no glue, no fastenings. It is made from two sheets of Japanese paper, each cut with small connection holes that slide onto a star-shaped fitting in stainless steel or brass. Once pressed into place, the paper bends into its curved form, creating a soft sculptural silhouette. The inner layer directs the downlight, while the outer diffuses it gently across the surface, giving the lamp its warmth and even glow. Available in two sizes, Sinuate Pendant is delivered pre-assembled and ready to hang.

Sinuate Pendant
Large and Medium

Ceramic Cone Pendant NEW

セラミックコーンペンダント
¥55,000

Ceramic Cone Pendant is a simple, focused light with a matt, fine-textured surface in unglazed clay. Each shade is cast and fired individually, giving natural variations in form, size, and colour that make every piece unique. For the coloured versions, the first layer of white porcelain is poured out early and replaced with a tinted clay. This gives the shade its light ochre or warm umber exterior. The white version stays slightly translucent and glows gently in the evening, while the coloured versions remain opaque and cast a warmer, more focused downlight.

Ceramic Cone Pendant
Light Ochre

Ceramic Cone Pendant
Light Ochre, White, Umbre Brown

Ceramic Ceiling Rose NEW

セラミックシーリングローズ
ベーシック　¥10,000

Ceramic Ceiling Rose is a simple cover for ceiling electrical connection points, offering a clean and durable alternative to standard plastic fittings. Made from unglazed white porcelain, it has a matt, fine-textured surface that brings a calm and minimal finish to any lighting installation. Each piece is cast and fired individually, resulting in subtle variations that reflect the character of the material. Ceramic Ceiling Rose is available in two forms, both designed to sit neatly against the ceiling and provide a refined, long-lasting solution around the cable entry.

Suspended Wall Lamp NEW

サスペンデッドウォールランプ
¥105,000

Suspended Wall Lamp is a sculptural wall light that allows you to adjust both the height of the shade and its distance from the wall. It consists of four main parts: a solid oak wall bracket, a stainless steel support wire, a pivoting arm, and a cable with a shade. Together, they create a flexible structure that lets you raise or lower the shade and pivot the lamp closer to or further from the wall.

Suspended Wall Lamp
Smoked Oak

Bottle Opener
Brass

Tray

トレー L
¥22,000
トレー S
¥16,000

A simplicity that carries through. The MOEBE Tray is great for taking drinks and snacks from one place to another. It's designed to hover slightly from the surface making it easy to slide your hands underneath and pick up.

Tray
Large

Cutting Board

カッティングボードL
¥13,000
カッティングボードS
¥7,800

It may be a simple piece of wood, but we think it’s a little bit more than that. The tapered V shaped edges of Cutting Board have two main functions – to make it easy to pick up and carry, and to create a narrow edge for the board to stand on and dry after being cleaned. All this to help keep the edges in better condition, for longer. Oh, and it’s FSC®-certified European oak, naturally.

Cutting Board
Large and Small

Wooden Wall Hook

ウッドウォールフック
¥4,750〜

Wooden Wall Hook is formed from two pieces of solid oak. The larger part is attached to the wall with the second then slotting into the first from above, which hides the screw and gives the perfect hanging point. Wooden Wall Hook works both great alone and in series.

Pinch

ピンチ
¥2,000

Two pieces of oak and a single rubber band. That’s it. Pinch can be used standing or hung from a nail using the hole on the back. Maybe you saved a ticket from last weekend’s concert, or a handwritten note from the one you love? These small items are important tokens of our lives, so when you are handed these tokens – ‘pinch’ them.

Pinch
Oak and Black

Key Ring

キーリング
¥4,150

Designed to upgrade the daily experience of reaching for your keys, our Key Ring is minimal, yet highly functional. Made from a single piece of metal wire, it has an easy closing mechanism meaning your keys will stay organized and kept safe. Simply twist it to open or to close. We know what you might be thinking – but don’t worry, despite its simple design, it holds up to 10 keys. Designed in Denmark, made in Europe.
